

FOR IMMEDIATE RELEASE

Auralex® Introduces Synergy™ Hexagon™ Acoustical Absorption Panels

Indianapolis, IN, USA, October, 2023

Auralex Acoustics, Inc., the world's leading brand of acoustical treatments, is pleased to announce their new **Synergy™ Hexagon™** Acoustical Absorption Panels. The **Synergy™ Hexagon™** panels are the first product released in the **Auralex Synergy™** product family. Synergy panels are an innovative combination of Auralex **EcoTech™** and Auralex **Studiofoam®** and deliver excellent acoustical absorption in a stylish and economical design.

"Acoustics customers, more than ever before, are as discerning about the aesthetics of their spaces as they are the way they sound," says **Auralex Acoustics Founder & President Eric Smith**. "Our new **Synergy™** line of acoustical absorption panels mark the next era for Auralex by presenting highly-effective acoustical materials in new forms that are forward-focused, visually appealing and meet demands of the ever-changing marketplace.

- Includes (16) 10" Synergy Hexagon panels
- (10) 1.4" thick and (6) 2.4" thick Synergy Hexagon panels
- Our innovative combination of EcoTech™ + [Auralex Studiofoam®](#) delivers excellent acoustical absorption
- Available in white and black
- Unlimited pattern arrangements for placement designed for your creative space
- Varied panel thicknesses provide a 3D look.
- Includes Adhesive backing for easy mounting
- Perfect absorption solution for recording studios, home entertainment areas, podcasting, on-camera streaming, gaming, reaction channels, and more.
