

Studiofoam® T

Acoustic Absorption Panel

FEATURES:

- Eliminates Standing Waves and Flutter Echo
- Reduces Unwanted Reflections
- Decreases Slap-Back and Room Ring
- Tames Full-Frequency Bandwidth

Auralex's latest Studiofoam® profile provides the absorption performance that Studiofoam® is famous for with a more contemporary look. This unique 2" profile is available in a 2' x 2' or 2' x 4' format and can be mixed with other Auralex® Studiofoam® profiles making a wide variety of unique designs possible.

Studiofoam® T

Acoustic Absorption Panel

The new panel's unique design features a repeating **T** profile pattern, making them appropriate for a variety of professional and residential applications. The panels are available in three popular colors and are made from **Auralex's** long-lasting, melamine-free formula, which won't crumble with age.

The **Auralex® Studiofoam® T** was developed out of our clients' desires to have a price-conscious **Studiofoam®** solution with a completely unique and modern aesthetic. This upscale design offers increased low-frequency absorption and a tasteful, seamless appearance.

Studiofoam® T

- Unique aesthetic at home in residential settings
- Easy installation using Foamtak™ Spray Adhesive, Tubetak Pro™ Liquid Adhesive or E-Z Stick Pro™ Tabs
- Melamine-free formula, won't crumble with age
