

ProPanel™ D-Ring Ceiling Mount

Installation & User Guide

Application:

For ceiling mounting 2" ProPanel™ Clouds with fastening plate and D-Ring.

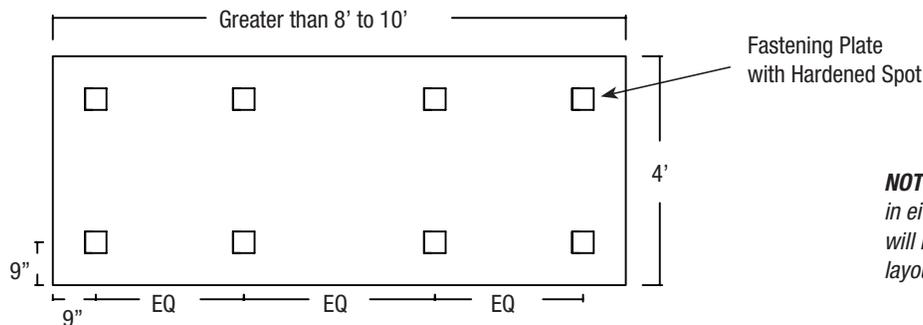

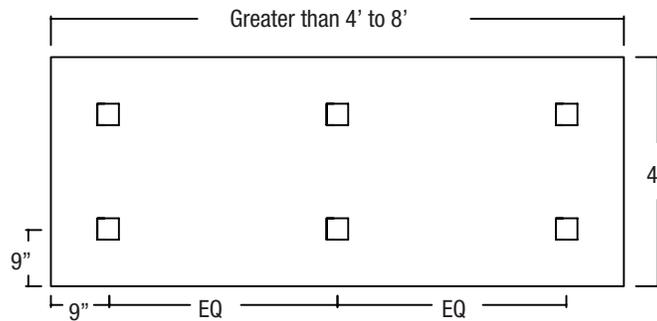

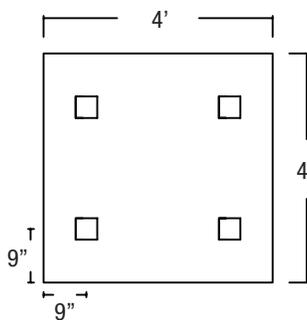

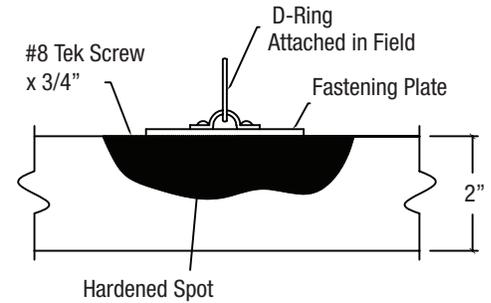

Description:

This installation technique uses a fastening plate and D-Rings to hang single ProPanels™ individually.

Installation:

1. Install D-Rings to center of metal plate using two (2) Tek - #8 x 3/4" screws.
2. Using 1/8" aircraft cable or other suitable hanging material, secure one end to D-Ring (hanging cable not included).
3. Secure other end to appropriate structure above.
4. Mounting locations can vary according to different sized ProPanels™.

Mounting Detail Elevation

NOTE: Less than 3'-6" in either direction will require a custom layout.
